Letter of support for Brandon Islamic Centre,

I'm writing this letter in support of the Brandon Islamic Centre to have the city water and sewer services extended for their new planned development at the Southeast corner of 1st and Patricia Avenue.

The Brandon Islamic Centre is the only of its kind in Brandon and provides a wonderful resource for residents and newcomers to Brandon. This centre offers a safe prayer space for newcomers and community members. As current president of the Brandon University World University Service of Canada (WUSC) Local Committee, I fully support the Brandon Islamic Centre and their bid to create a new building space. BU WUSC sponsors newcomer refugees each year, many that are Muslim students that greatly benefit from the Brandon Islamic Centre. It provides them a place to practice their religion, feel safe and connect with their community members.

The Brandon Islamic Centre has also outgrown its current space on 10th Street. They need to have a more accessible space for all is important for so many reasons. They need for more prayer space, hosting events, and having a commercial kitchen is much needed. I support the request to have the city water and sewer services extended so that the Brandon Islamic Centre can grow and continue to be mandatory asset to the Brandon community.

Sincerely,

Angie Currie
