Att: City of Brandon, and Municipality of Cornwallis,

Re: Brandon Islamic Centre

To Whom It May Concern,

We are writing this letter in support for the Brandon Islamic Centre's request to extend water and sewer lines to the property at the intersection of 1<sup>st</sup> Street and Patricia Avenue, in the RM of Cornwallis, with the goal of building a new facility.

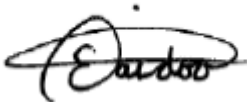

Brandon Islamic Centre is an integral part of the Brandon and Westman community with strong commitment to community services, including religious and spiritual services, support for refugees and immigrants, promoting research and education, alleviating poverty and hunger, and promoting community tolerance through open houses and dialogue.

Having the Brandon Islamic Centre in our community helps to grow and enhance services available to our newcomer community. Brandon Islamic Centre is an important partner to our organisation and help to support Brandon's increasingly diverse and multicultural community.

We hope that you approve their proposal as it would help to make the Centre available to more members and strengthen the fabric of our community.

If I can provide any additional information to support their request, please let me know.

Best regards,

Enver Naidoo  
CEO - Westman Immigrant Services
